KUPO X-Bone is an ideal solution for needs on the move, featuring light weight, compact and durable. The patent structure makes it easy to fold and unfold in minutes, and aluminum alloy makes it light but sturdy for frequent usage.

Five different size of length leaves versatile appearances and applications.

## Features:

### [ 1 ]

made of high intensity aluminum alloy (6061), enduring deformation and load for 4.8~5.0 tons / square meter.

### [ 2 ]

compact, light weight, and easy to build up and break down in around 2 minutes per set; need less space to archive.

### [ 3 ]

stylish and slim profile; treated with anodized coating for rust-free.

### [ 4 ]

different sizes make flexible applications accessible.
